

RePG Solar UPS Power Supply; with its built-in PV panel, it meets the energy need without the need for a grid.

RePG Solar UPS Power Supply

- ✓ It is portable, lightweight, shockproof and dustproof.
- ✓ Protects the environment with Green Energy.
- ✓ It meets your electricity needs in every area you are in such as office, factory, home, garden etc.
 - ✓ It offers three different battery capacity types as 7Ah, 14Ah and 28Ah.
 - ✓ The charging time can be reduced by adding an external solar panel.
- ✓ It can be charged from the socket with its external adapter so that it is ready for use quickly.

RePG Solar UPS Power Supply; with its built-in PV panel, it meets the energy need without the need for a grid.

RePG Solar UPS Power Supply

Model	RePG-Solar-UPS-S
Battery Capacity	7Ah
Charge Voltage	24V
Panel Power	10W
External Panel Type	24V Mono Crystal Panel
AC Output Voltage	220V 50Hz 300W
DC Output Voltage	5V 2A USB Output
AC Output Voltage Waveform	Modified Sinus
Weight	4 kg
Dimensions	417mm x 298mm x 85mm

Model	RePG-Solar-UPS-M
Battery Capacity	14Ah
Charge Voltage	24V
Panel Power	25W
External Panel Type	24V Mono Crystal Panel
AC Output Voltage	220V 50Hz 300W
DC Output Voltage	5V 2A USB Output
AC Output Voltage Waveform	Modified Sinus
Weight	7 kg
Dimensions	492,5mm x 348mm x 85mm

Model	RePG-Solar-UPS-L
Battery Capacity	28Ah
Charge Voltage	24V
Panel Power	50W
External Panel Type	24V Mono Crystal Panel
AC Output Voltage	220V 50Hz 300W
DC Output Voltage	5V 2A USB Output
AC Output Voltage Waveform	Modified Sinus
Weight	14 kg
Dimensions	673mm x 492mm x 85mm
